

Northline Supply — Shipping and Delivery

Orders placed before 14:00 CET are dispatched the same working day from our Vilnius warehouse.

Standard delivery inside the European Union takes two to four working days. Delivery to Norway and Switzerland takes five to seven working days and customs duties are paid by the customer.

Tracking

A tracking link is emailed the moment a parcel leaves the warehouse. If no tracking email arrives within two working days, contact support@northline.example.

Lost parcels

A parcel is treated as lost after fourteen working days without a tracking update. Northline Supply then ships a replacement at no cost.
